The concert, one of four to be held at various locations in the Eastern Shore, is part of the Maryland Folklife Festival, an annual event produced by the Maryland Arts Council. This year's festival will highlight the informal traditions of Maryland's Eastern Shore. Featured at the concert will be two groups of musicians and singers—the Burke Family, a gospel-singing group from Chestertown; and Joe Cailoway and the Country Ramblers, a Church Hill bluegrass group. The groups were selected after extensive field research by Maryland Arts Council fieldworkers and are among the best representatives of the informal music traditions of the Shore.

He will be appearing Wednesday, September 13 in Holloway Hall Auditorium at 8 p.m. Free tickets are available to SSC students at the Information Desk in the College Center. The Health Center will not be lending heating pads this year unless a \$5.00 deposit is made at the time it is picked up.

Free medical literature on a variety of subjects is always available in the Health Center waiting room. Please take advantage of this opportunity to learn more about yourself and how to remain healthy.

If you are insured with the SSC student health insurance plan and find you need reimbursement for a medical expense, be sure to submit the proper claim form, completely filled out and signed. This will expedite payment and needless confusion. Should you need assistance, the Health Center secretary is available to help you.

We have had many inquiries in the past regarding blood donations. For information concerning this procedure, please contact the SGA Office.

All students under the age of 18 years should have a PERMISSION TO TREAT form filled out and filed with their personal health record. Please come to the Health Center for this form if you have not already done so.

ART EXHIBIT AT BLACKWELL LIBRARY

A meeting is planned for the week of September 11. Contact the president, Gwyn Koenig, 546-1093, or Dr. Standaert to add your name to our mailing list.

STUDENTS TAKING BIOLOGY COURSES

It's Not Too Late

If you are taking biology courses other than Biology 101, you should have had advice in course selection from one of the biology faculty. If you have not, or if you are planning to change your registration in biology courses, please consult with one of the biology faculty before the end of the Drop/Add period.

MEETING FOR PRE-NURSING STUDENTS

The first meeting of the academic year for all SSC pre-nursing students will be held on Wednesday, September 6, 1978 at 7:30 p.m. in the Nursing Department.

The Nursing Department is located in the Hall Educational Center at the corner of Waverly Drive and Locust Street, near the Peninsula General Hospital Medical Center. The meeting will be held in the Center's Auditorium.

FIRE SALE

The first Friday Night Flick of the semester will be *Fire Sale*. It will be shown in Holloway Hall Auditorium at 7 and 10 p.m. Admission will be \$.50 per person.

Fire Sale follows the antics of the Fikus family, the biggest bunch of loonies ever on screen. Alan Arkin plays a basketball coach with a two year string of unbroken losses who suddenly adopts a 7 foot tall, 16 year old black orphan in answer to his wife's plea for a baby. Rob Reiner also stars in this outrageous black comedy about failure, illness and insanity.

RACQUETBALL SCHEDULING

Beginning August 30, the opening of the 1978-79 academic year, all reservations for the handball-racquetball courts must be made in person. Reservations may be made at the control desk in the lobby. If no one is on duty at that desk, the reservation book will be at the receptionist's desk in the office complex of the second floor.

This change in the reservation system is designed to insure an equitable reservation system for all bona fide users of the facility.

MARYLAND FOLK LIFE FESTIVAL TO BE HELD SEPTEMBER 9 and 10

The Fourth Annual Maryland Folklife Festival will be held at the Wye Institute, Queen Anne's County, on Saturday and Sunday, September 9 and 10, from 11 a.m. to 6 p.m. The festival is free and open to the public. Food and beverages will be available at the site.

The outdoor event will feature traditional regional activities of Maryland's Eastern Shore, with continuous demonstrations of maritime crafts (boatbuilding, sailmaking, fishing tackle making, netmaking, net gearing, eelpot and crabpot making); decoy and waterfowl carving; agricultural crafts (blacksmithing, harness-making, auctioneering); and crafts of the home and community (quilting, stonecarving, tin-smithing, chair caning, soapmaking). Decoys, boats, farm equipment and other items will be on display. Festival visitors may also attend films and discussions on Shore wildlife management, ecology, decoy carving, and storytelling. Eastern Shore musicians, singers and storytellers will perform throughout the festival.

Music Concert Here!

In addition to activities at the Wye Institute site, the Maryland Folklife Festival will present a concert of Eastern Shore music at Salisbury State College, as well as three other locations. These concerts are free and open to the public and will begin at 8 p.m. Dates and locations are as follows: Friday, September 8—Cambridge/South Dorchester High School (Cambridge) and Queen Anne's County High School (Centerville); Saturday, September 9—Pocomoke High School (Pocomoke High School (Pocomoke City) and Salisbury State College.

A nonprofit educational program, the Fourth Annual Maryland Folklife Festival is sponsored by the Maryland Art Council Folklife Program, the National Endowment for the Arts, the Wye Institute, and Salisbury State College.

Unlike a craft fair, the Maryland Folklife Festival is not for the purpose of selling crafts; rather, its main intent is to demonstrate process and skill in the material and expressive folk traditions of the Eastern Shore, and to enhance public appreciation of these traditions.

To get to the Wye Institute, travelers may follow U.S. 50 in Queen Anne's County, watching for signs between U.S. 301 and Maryland 213.

Persons who wish further information about the festival are invited to call or write Charles Camp, Maryland Arts Council, 15 West Mulberry Street, Baltimore 21201, (301) 685-6740; or Polly Stewart at SSC.

PHYSICAL EXAM NOTE

All athletes who plan on participating in Fall Baseball, Fall Lacrosse, Women's Tennis, and Men's Tennis must have a physical examination by the SSC Health Center physician. Please report to the Health Center and make an appointment to have this completed by September 12.

FELLOWSHIP APPLICATION

Information about the Danforth Graduate Fellowships, to be awarded by the Danforth Foundation of St. Louis, Missouri in April 1979, is available from Dr. William F. Standaert, DH 140.

The fellowships are open to all qualified persons who have serious interest in careers of teaching in colleges and universities and who plan to study for a Ph.D. in any field of study common to the undergraduate liberal arts curriculum in the United States.

These are very selective awards. Approximately 60-65 fellowships will be awarded to college seniors who are nominated by campus nominating committees across the nation. Another 40-45 awards will be made to Ph.D. graduate students.

The foundation is currently making a special effort to bring qualified persons from racial and ethnic minorities into the profession of teaching. Approximately 25 percent of the awards are expected to go to Blacks, Mexican-Americans, Native Americans and Puerto Ricans.

Applicants for the baccalaureate awards must be college seniors and may not have undertaken graduate level programs of study. The deadline to seek information about the campus nomination process is October 5, 1978. The Graduate Record Examinations should be taken on October 21 (application deadline is September 25).

The minority coordinator is going to be concentrating on academic problems, social adjustments, and any needs or concerns that could make a smooth transition from high school to college and a successful college career.

ATTENTION INTERNATIONAL STUDENTS

We want to get to know you! At your convenience, please stop by the Office of the Associate Dean of Student Affairs, room 155, Holloway Hall, just to chat or to get your questions answered. We want to help make your stay on campus and in our country an enjoyable and rewarding experience.

Foreign students who are juniors, seniors or graduate students, and are interested in employment in their home countries, are eligible to participate in the Registry. Circle K International is the largest collegiate organization in North America with nearly 700 clubs throughout the United States and Canada. The Circle K Club is a service organization through which Salisbury State College students can find a means of responsible student action in the community and a more active involvement in the life of their campus.

Circle K provides an opportunity for the development of personal leadership skills and the growth of personal initiative in analyzing the needs of our campus and community and attempting to find solutions for them. An additional and very important aspect of Circle K is that membership in the club is also a means of forming friendships, working in a common cause with other students and simply having fun in various social activities.

To be eligible for membership a student must meet the minimum scholastic and attendance standards of the college. Any student who is officially enrolled in the college may be eligible for membership.

JAYCEE MEETING

The SSC Jaycess will be holding an interest meeting, Sunday at 7:30 p.m. in

223 HH. All males, 18-35 years old, are invited to attend. Become a member of the nation's most active young men's organization.

ATTENTION SENIORS

A new "short form" registration, primarily designed for business and liberal arts majors, has been developed by the Career Development Center. Seniors who will be seeking employment in 1978/79 are encouraged to visit the center and initiate the registration process. The new package makes collection of references optional and streamlines the entire process.

Several benefits are received from registration. Registrants receive the center's "job openings" mailing list and monthly on campus recruiting calendar. Employers seeking candidates for job openings can receive background and academic data from the center, thus providing them with quick access to qualified and interested candidates.

Seniors interested in registering, should do so early to insure receipt of the various mailings. There are no charges for the new "short form" or the standard registration packages.

WHAT IS THERE TO DO IN SALISBURY

Horizons editor, Judy Smethurst, is a Salisbury State College student in the Leisure Studies Department.

NOTES FROM THE ACADEMIC DEAN

GRANT INFORMATION

The Social Science Research Council has just published their latest brochure entitled "Fellowships and Grants." If you are interested in determining if your research could possibly be subsidized, please drop by the Academic Dean's Office to read the literature.

SUMMER STIPENDS

The National Endowment for the Humanities announces their summer stipends for 1978-79. The purpose of the stipends is to help college teachers in their research and as teachers by providing support for two consecutive months of full-time study for research. The work proposed may be study or research within the applicant's special areas of interest, or it may be study in some other area that will enable them to understand their own fields better and enlarge their competence. If you would like further information on these grants, please drop by the Academic Dean's Office.

APPLICATION DEADLINE!

Towson State University has formed a Search Committee to find a Dean of Continuing Studies. The deadline for receipt of applications is Friday, September 29 (I received the announcement on Monday the 18th). If anyone is interested in knowing more about the position, drop by the Academic Dean's Office for further details.

"EXCUSED" ABSENCES

Some professors have included in their written absence policy a statement that the student must present a written excuse from the Health Center attesting to the student's illness. Other professors have indicated they will need certification from the Office of the Dean of Students that the absence is officially "excused." Mrs. Rickert has informed the Academic Dean's Office that the Health Center no longer issues excuses of any kind which relate to class attendance and has not issued them for several years. Likewise, Dean Audrey Stewart indicates that her office does not issue "excused absence" statements either. She says that occasionally the Dean of Student's Office will be advised that a student will be absent for some reason, and that information is passed along to the professors. But it is not a "certificate of legal absence." The Dean of Student's Office simply cannot check out all of them to verify their authenticity.

Absences of any nature are matters to be worked out between the professor and the student. There is no office on campus permitted to grant "excused" absences.

EDUCATION DEPARTMENT

Many school systems are requiring teacher applicants to take tests in language skills as part of the application process. To help you polish your skills in reading, writing, and speech, the Education Department requires successful completion of competency tests in these areas prior to admission to the sequence of professional education courses. These tests should be taken as early in your college career as possible in case remedial work in one of the areas is necessary. Please stop in at the Education Office, Caruthers Hall, room 102, and talk with Al Constantine about ways of satisfying this requirement easily and quickly!

STANAT IN CLASSROOM

The Business and Economics Society will sponsor a guest appearance of Kirby Stanat in the Social Room of Holloway Hall at 3:30 on Tuesday, October 10. Stanat's lecture will be directed towards the business student's quest for a job.

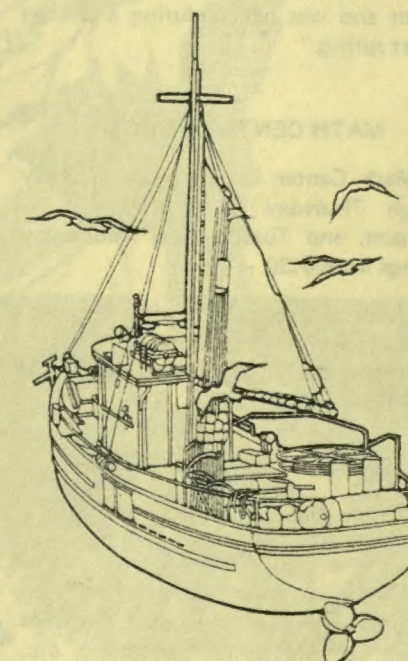

JOB COUNSELLOR ON CAMPUS

Kirby Stanat, former corporate recruiter who has personally hired over 8,000 people, will discuss job hunting secrets and tactics at HH Auditorium, Tuesday, October 10 at 8 p.m. Tickets are available for the general public at the College Center at \$2 per ticket.

Stanat, once a placement director at the University of Wisconsin at Milwaukee, is author of a book with a no-nonsense approach to job seeking. He graduated from Penn State and studied labor relations and law at the University of Pittsburgh. During his career he handled industrial relations at Magnetics, Inc., Butler, Pa.; The Martin Company at Denver, Col.; and The Louis Allis Company, Milwaukee, Wisc.

Stanat notes that finding a job in today's market is becoming an increasingly difficult task with students facing glutted markets, which result after they enter their college studies.

In essence, Kirby Stanat will present a totally different perspective on the problem of job hunting. As a corporate recruiter, he can tell you exactly what the interviewer is looking for in you and what you should be looking for from him. Armed with this useful information, you can approach your prospective employer in a more intelligent and potentially rewarding manner. No matter how prepared you think you are to enter the job market, the lack of a working knowledge of the internal mechanisms of the hiring process and how the process can work for you can only hurt your chances of landing the job that you want.

THEATER TRIPS SET

This fall the English Department and the College Center Program Board are again co-sponsoring a series of trips to Washington and Philadelphia theater performances. Since academic interest in our trips has been high in the past, we shall be able this year to offer four, two each semester.

In the fall we will travel first to Philadelphia on October 24th to the Zellerbach Theater of the Annenberg Center on the University of Pennsylvania campus. Performing there will be Tammy Grimes and Paul Hecht in *A Month in the Country* by Ivan Turgenev, one of the nineteenth-century masters of Russian Drama. For our second trip we will return to Washington to the intimate Krieger Theater at the Arena Stage for a performance of *The 1940's Radio Hour* by Walt Jones on November 28th.

Tickets for *A Month in the Country* will go on sale at \$3.00 on October 9th at the College Center desk; please note that these are front orchestra seats for a first night performance. The bus will leave from the Tawes Gym parking lot at 1:30 p.m. so that we can be in Philadelphia in time for dinner and an 8:00 p.m. curtain. The price of the tickets includes bus transportation.

Tickets for *The 1940's Radio Hour* will go on sale on November 8th at \$2.50 each at the College Center Desk. The bus will leave at 1:00 p.m. from the Tawes Gym parking lot.

Annenberg Center's publicity for *A Month in the Country* tells us that the production will be the McCarter Theatre Company's and will be directed by Michael Kahn. "In *A Month in the Country* a beautiful and desirable woman falls hopelessly in love with her son's handsome tutor during a summer holiday on a country estate. Turgenev's bitter-sweet comedy dissects the affair with elegant wit and infinite tenderness." From Arena Stage comes the following slightly more florid description of *The 1940's Radio Hour*: The play "affectionately conjures up a live 1942 radio broadcast with a beguiling troupe of crooners, coosers and boopadoopers, replete with an onstage orchestra and flashing applause sign. Without camp or condescension, the show recreates an unforgettable age of music, comedy and vivid imagination. Washington native Walt Jones developed the show through extensive improvisational work at the Yale University Cabaret and was hailed during a Boston run last spring."

MATH CENTER HOURS

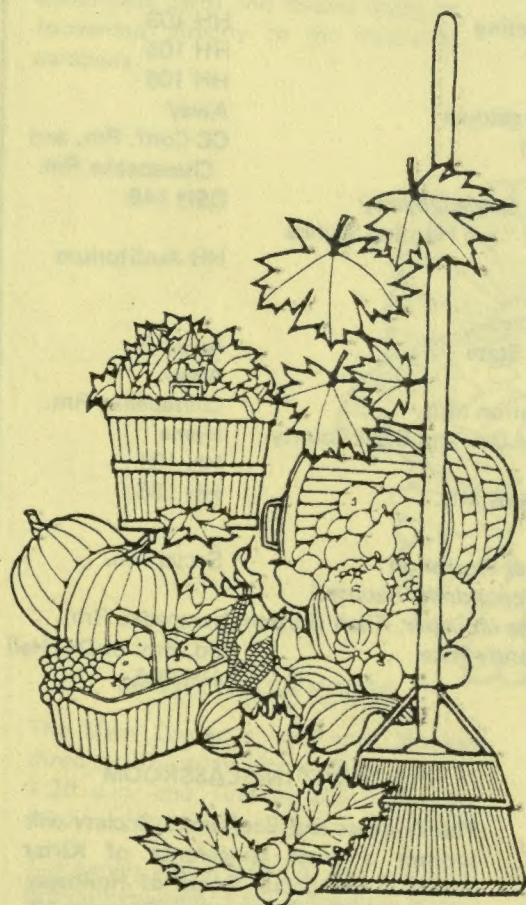

The Math Center is now open Monday through Thursday from 8:30 a.m. - 4:30 p.m. and Tuesday and Wednesday evenings from 6:30 - 9 p.m.

The center wishes to help with any math difficulties—even if encountered in classes other than math. They are located in DSH 242, extension 374.

Perhaps a small note temporarily attached to typewriters will serve as a reminder to employees typing letters to add the phone number until new stationery is available with a number already imprinted on it.

MUSIC AND MIME

Music and Mime with Michael Hennessy and musicians Dan Blegen and Eric Sayer will perform at Holloway Hall on Tuesday, October 17 at 8 p.m.

Michael Hennessy is a brilliant young mime artist from Minneapolis. His easy going charm and personal warmth quickly develops a rapport with any audience, and Michael loves to get involved with his audience! His residency classes at various colleges and universities have been a great success all over the country. He is a special sort of mime artist who diverts from the traditional school by choosing his background in ballet, karate, theatre, modern dance, yoga and gymnastics. His style is that of the classical mimes of Europe tradition.

This music of Dan Blegen and Eric Sayer add a third dimension to Michael's creativity, resulting in an artistic blend of music and mime. Blegen and Sayer, proficient in over a dozen instruments ranging from concerting to oboe, accompany Michael through his program of tragic, comic and sensual sketches of the human experience. Their original compositions and sound effects, self-proclaimed "Classical Cartoon Music," add a dimension that never ceases to delight a Mime and Music Theatre audience.

Don't Think of All the People out There Who Need Help... Think of All the People Here.

If one of your co-workers needed help, you'd probably be the first to lend him a hand. Last year, you did... through the United Way.

Because by giving your Fair Share through payroll deduction, you provided disaster assistance in times of emergency... life-saving blood in times of sickness... family counseling in times of trouble.

You also supported recreational activities at the Y and youth programs in Scouts... all services supported by your annual contribution.

So this year when you're asked to make your contribution, don't just think of all those people out there who need your help... think of all the people here.

The United Way.

PREMEDICAL ADVISORY MEETING

Premedical, pre dental, and preveterinary students are urged to attend a meeting from 3:30 - 4:30 p.m. Tuesday, October 31, in DH 134 to review course recommendations and preparation for professional schools. Errors in course selection are common and can seriously jeopardize readiness for admissions tests taken at the end of the junior year. Students considering a medical career should contact Dr. Standaert (DH 140), get advice early, and quickly get on the track of preprofessional courses. Several advisors will be present for Tuesday's general discussion and question session.

Students considering other health professions (pharmacy, optometry, physical therapy, etc.) will not find this meeting helpful, but should also get advice early. Visit Dr. Standaert, Dr. Tyvoll (DH 326), or the Career Development Office. Mrs. Hyde (HH 211) advises nurses, and Mr. Grosky (HH 267) advises medical technology students.

The Medical Careers Club is scheduling a course in cardiopulmonary resuscitation (CPR) for two evenings in early November. Club participants and others preparing for a medical or allied health career will be given priority, but others, including faculty and staff, are welcome to participate on a space-available basis. Contact Dr. Standaert very soon to register your interest.

MIKE WILLIAMS

On Thursday, October 26, the Muddy-hole Coffeehouse will host Mike Williams. Williams played on campus last semester as the opening act for the England Dan and John Ford Coley concert. His rowdy style and casual air went over so well the CCPB decided to get him back for a night all his own. The coffeehouse will be held in the Maryland Room of the Dining Hall at 9 p.m. Since we are expecting such a large crowd for this event please pick up your free ticket at the Information Desk beforehand. Free refreshments will also be available.

POETRY READING

Michael Sheridan will read his poems in Blackwell Library's Art Gallery at 8 P.M. on Monday, October 30.

FLU SHOTS AVAILABLE

Vaccine for immunization against the A-Russian, A-Texas and B-Hong Kong influenza will be available in the Health Center any time after today. Students will not be charged, and only a nominal fee will be charged for faculty and staff.

If you are Under AGE 26, you will be required to have two (2) doses for complete immunization. We have enough serum for 100 people, and it will be on a first come, first served basis. Two doses are necessary for this age group because the Russian strain requires more immunity since this group has had less exposure.

If you are OVER AGE 26, only one dose is required. We have enough serum for 200 inoculations, and this also will be on a first come, first served basis. This group has supposedly had some exposure in their lifetime, so some immunity is presumed.

FLU SHOTS REMINDER

Vaccine for immunization against the A-Russian, A-Texas and B-Hong Kong influenza will be available in the Health Center any time after today. Students will not be charged, and only a nominal fee will be charged for faculty and staff.

If you are UNDER AGE 26, you will be required to have two (2) doses for complete immunization. We have enough serum for 100 people, and it will be on a first come, first served basis. Two doses are necessary for this age group because the Russian strain requires more immunity since this group has had less exposure.

If you are OVER AGE 26, only one dose is required. We have enough serum for 200 inoculations, and this also will be on a first come, first served basis. This group has supposedly had some exposure in their lifetime, so some immunity is presumed.

INSURANCE COVERAGE FOR EDUCATION MAJORS

Coverage for students visiting or working in schools to satisfy course requirements has been a concern of the Education Department for a long time. The SNEA (Student National Education Association), an affiliate of the NEA, does provide such insurance coverage to its members. The coverage amounts to \$500,000, and insures a member against suit, pays bail bonds, pays for medical relief to others injured, and pays all reasonable expenses incurred by the member in case of accident while in an educational agency.

A student is automatically insured when he becomes a member of SNEA, since a portion of the yearly dues pays for the insurance coverage. All students are urged to check at the Education Office, Caruthers Hall, room 102, for further information.

SSC UNDERGRADUATE SURVEY

A special survey to determine if there is a need for a pre-summer session is being sent to a random number of SSC undergraduates (freshman, sophomores, and juniors). The Office of Continuing Education is determining if SSC students would desire to enroll in a pre-season session.

Hal Schaffer, Director of Continuing Education says, "We have reason to believe Salisbury State undergraduates would be interested in a pre-summer session beginning Monday morning, May 7 to Friday, June 1. SSC students could enroll for one 3 S.H. credit course which would meet 95 minutes per day, Monday through Saturday mornings."

This would enable Salisbury State undergraduates (who may begin full-time summer employment after Memorial day) to enroll for one undergraduate course in order to accelerate their degree programs, and/or transfer students to catch up for General Education requirements, etc.

Listed below are the regular Summer Session '79 dates:

1) Evening Division begins Monday, May 14 - ends Friday, July 6;

2) Summer Session I (Day) begins Monday, June 4 - ends Friday, July 6; and

3) Summer Session II (Day) begins Monday, July 9 - ends Friday, August 10.

The Office of Continuing Education believes it can continue to meet the needs of Salisbury State students in both a traditional as well as non-traditional programs.

SSC undergraduates who are not part of this survey, may pick up a copy of the survey in the Office of Continuing Education, Tawes Gym. The surveys are due back in the Office of Continuing Education, Monday, Nov. 13, 1978

FORMER COMMISSIONER OF SCOTLAND YARD TO APPEAR HERE

Sir Robert Mark, former commissioner of Scotland Yard, will speak at SSC on Monday, November 13, at 8 p.m. in HH Auditorium. Tickets are now on sale at the College Center at \$2.00 per person.

The London police force, better known as Scotland Yard, has been celebrated in fiction for its unswerving honesty. But in fact, cops there have been found to be just as corrupt as those of other major cities elsewhere in the world.

Sir Robert Mark, who recently retired after five years as head of Scotland Yard, spent much of his time in office fighting to clean up the force. And he made a good deal of progress, especially in breaking the connection between detectives of the Criminal Investigation Division and pornography dealers in Soho, the London tenderloin.

The prospect is, however, that Scotland Yard still has a long way to go before it is fully purified and can begin to match the illusory image it enjoys.

Though Sir Robert Mark is gone, his legacy may have been to unravel the romantic notion that London's police are models of virtue. For that reason, he may be remembered as a figure as heroic as Sir Robert Peel, who invented the "bobby" more than a century ago.

ON CHECK CASHING

Check cashing privileges are available at The Book Rack. Checks to be cashed must be made payable to Salisbury State College. (Two party checks are not acceptable.) The limit is \$25 per person and a student ID is required. A ten cent service charge is made for each check.

WINTER COMMENCEMENT INFORMATION

The following information concerning the 1978 Winter Commencement will be of interest to student and faculty participants.

Commencement will be held at 10:30 am on Thursday, December 21 in the Maggs Physical Activities Center. There will not be a commencement practice nor will there be a baccalaureate service. Because of the increased seating capacity a ticket system will not be utilized and graduates may invite as many guests as they desire.

All graduates and faculty are requested to form for the processional in the second floor gymnasium of the MPAC at 10:00 am. Please be prompt! Faculty marshals will assist you in locating your appropriate place in the procession.

Caps, gowns, and master's hoods will be distributed through the college bookstore beginning December 4. Caps, gowns and master's hoods will be retained by the graduates and it is not necessary to return them after commencement. Invitations will also be distributed through the bookstore beginning November 20.

It is suggested that graduates, faculty and guests park in the Devilbiss, Caruthers, and Allen parking lots.

If you do not plan to participate in the commencement exercises please inform the Registrar's Office at your earliest convenience. All graduates will receive a blank folder at commencement and all diplomas will be mailed by certified post as soon as they are available following commencement. Graduates should inform the Registrar's Office if they have recently changed their address.

Specific questions regarding commencement may be directed to the Office of the President.

READERS THEATRE PRODUCTION

Salisbury State Theatre will present an adaptation of the novel *Dandelion Wine* by Ray Bradbury in Readers Theatre form under the direction of Robert J. Wesley, chairman of the Department of Communication Arts. This will be presented on the Holloway Hall stage on December 9 and 10.

Ray Bradbury's *Dandelion Wine*, originally a novel published in 1957, is made up of a series of incidents that occur one summer in a small American town. Bradbury's novel abounds in those special qualities which characterizes ideal literary material for Readers Theatre: impelling imagery, fluid phrasing, evocative power, unique characters with whom an audience can readily emphasize, skillfully wrought moods—ranging from comedy to deep sadness, and an overall sense of authentic beauty emerging from the universal experiences of mankind.

Cast members in this production of *Dandelion Wine* are Brad Homan, Amy Butler, Chester Vienne, Jay Lind, Michael McKinney, and Cheryl Aydelotte. Curtain time for both performances will be at 8:30 p.m. Admission is free and ticket reservations can be made by calling the Box Office at 546-3261, extension 498 between the hours of 2-6 p.m.

Another of Dr. Horne's papers, "Age of Reason or Age of Madness?" will be published in a special edition of *Eighteenth-Century Life*, along with papers on teaching eighteenth-century literature selected from those presented at the East Central Regional Meeting of ASECS held last year at York, Pa.

Mrs. Connie L. White, who teaches Literature of the American West, presented "Nature as Obsessive Symbol in Clark's *The Track of the Cat*, Waters' *Pike's Peak*, and Fergusson's *Grant of Kingdom*" at the Western Literature Association Meeting at Park City, Utah.

CALLING ALL ELECTRONIC WIZARDS

If you have capability with electronic circuitry then please keep reading. . .

We are looking for persons to assemble (from plans) various psychophysical instruments to aid the retarded to become more involved in their environment. These instruments would aid fifteen retarded (multiply-handicapped) persons whose intellectual functioning levels run from the profound range up to the mild range of retardation.

One of the instruments is a voice synthesizer which would enable a person without speech, and without the ability to learn sign language, to communicate through symbols which would appear on a screen at the touch or movement of a knob or button. These psychophysical instruments would also allow children with rather high cognitive capabilities, but with severe physical handicaps, to better enjoy life.

There are funds available to pay consultants who would be interested in assembling these instruments. If you are interested, please contact Dr. Edmund T. Delaney, chairman of the Psychology Department, room 130 HH, ext. 446.

'VISIONS' PROGRAM COMING

"Visions of Tomorrow," a fast-paced mixed-media program will be presented in Holloway Hall Auditorium, Wednesday, January 31, at 8 p.m.

"Visions of Tomorrow" recaps what the future was supposed to be like, what happened to those dreams, and what we must do to replace them. It is a superb blend of visual fantasies from the 1930's and 40's, humorous images, old and new architectural visions, devastating environmental facts and examples of workable alternative technologies. Directing the program will be activist-writer Sam Love, and participating will be musician Gene Ashton. Following the lecture will be a question and answer program with audience discussion.

THE PEOPLE:

Sam Love cut his political teeth working with civil rights groups in Mississippi in the 1960's. In 1970 he worked as one of the coordinators of Earth Day and helped organize Environmental Action, a Washington-based lobby. He edited Environmental Action's magazine and served as coordinator of the group. Since 1974 he has worked as an energy consultant and writer. His articles on the future, appropriate technology, economics, and ecology have appeared in *Smithsonian*, *Washingtonian*, *Washington Star News*, *Washington Post*, *Business and Society Review*, *Progressive*, *Community Planning Report*, *The Futurist*, and others.

Gene Ashton is a pioneer who is expanding conventional musical conceptions. He plays a series of custom-build instruments ranging from a modified sewer pipe to the ashimba, an all-wood xylophone-like box. With these, Gene Generated a unique, pleasant experience for audiences that levitates their ears to another dimension.

PIANO RECITAL

Riley Haws, a Peabody Conservatory student in Baltimore, will give a piano recital in the Social Room on February 14 at 8 p.m. Mr. Haws is currently working on a Master's degree in piano at the Peabody Conservatory in Baltimore under Fernando Laires.

A native of Texas, he was raised in a family in which all the members played guitars and sang folk music extensively, in public as well as at home. He began piano at age seven and immediately took an interest in classical composers, which did not blossom, however, until the age of eighteen, at which time he laid down the guitar and its incumbent folk-music aesthetic once and for all.

After a year of studying composition, cello and piano at North Texas State University, Haws finally went to major in piano under Luiz Carlos de Moura Castro at Texas Christian University. There he received numerous honors, including first prize in both the Texas and Southwest Regional MTNA competitions, as well as second in the Texas Young Artist Competition, and was awarded the Performer's Certificate upon graduation in 1975. He then received a German Academic Exchange Grant from the Fulbright Commission and spent the following year in Germany studying under Karl Engel at the Hannover Hochschule fur Musik.

ATTENTION! ALL JEWISH STUDENTS

HILLEL is coming to Salisbury State College. First meeting: Wednesday, February 21, 7 p.m., Chesapeake Room, College Center. ALL Jewish students please attend.

This spring's first English Department/CCPB Theater Trip will be on February 22 to the Eisenhower Theater at the Kennedy Center to see Alan Ayckbourn's new hit comedy *Bedroom Farce*.

By the author of the trilogy *Norman Conquests* (recently shown on PBS), *Bedroom Farce* will be performed by the National Theatre Company of Great Britain, directed by Sir Peter Hall and Alan Ayckbourn. The play comes to the Kennedy Center from London where it received rave reviews.

Kennedy Center publicity people have sent us this intriguing blurb: "You thought *Bob, Carol, Ted & Alice* had times! Wait 'til you meet Delia, Ernest, Trevor and Kate. And Nick who has a bad back, Susannah who can't cook, Malcolm who fancies himself a handyman and Jan, an executive's wife and Trevor's ex-girlfriend. Six of these eight characters spend one long Saturday night, all trying to get to sleep. The intrusions of the fourth couple make this nearly impossible, but are sure to keep you howling at the smartest comedy to come out of London in nearly a decade!"

Tickets for *Bedroom Farce* are now on sale at the College Center Desk at \$4.00 each for students and \$5.00 for faculty and staff. Ticket price as usual includes bus transportation to and from the Kennedy Center; the bus will leave at 1 p.m. from Tawes Gym parking lot. Sign up now for a trip package that would cost fifteen to twenty dollars per person if you went on your own. For further information, call Bill Horne at extension 481.

BRAHMS CONCERT

A Salisbury State College concert of all Brahms music will be presented by soprano Norma Heyde and pianist Patti Collett on March 13 in the Social Room at 8 p.m. Sponsored by the Music Department, the concert by the two faculty members will include some of Brahms' most beloved art songs and solo pieces for piano.

Mrs. Heyde is associate professor of music and is responsible for all the voice instruction of SSC. She has studied with several outstanding voice teachers, including Arthur Hackett, Martial Singher and six years with Rose Ponselle. She has sung with the Philadelphia Orchestra, the National Gallery Orchestra in Washington and with numerous orchestras and choral societies in the eastern half of the country. Annually she is invited to sing the soprano arias in performances of Handel's *Messiah* with the Northern Virginia Chorus and Orchestra and the York, Pa. Symphony and Choral Society. She performs regularly in many churches in the Philadelphia and Washington areas, as well as on the Delmarva Peninsula.

Miss Collett, a native of the Washington D.C. area, has become a full-time instructor of music at SSC, after serving as a part-time member of the faculty for the past three years. While at the University of Maryland, Miss Collett performed in master classes at the International Piano Festival, with Adele Marcus of the Julliard School of Music and William S. Newman, author and professor of piano at the University of North Carolina, Chapel Hill. Her post-graduate study has included private study with Fernando Laires of the Peabody Conservatory of Music and two diplomas from the Internationale Sommerakademie der Hochschule, "Mozarteum" in Salzburg, Austria where she studied with Winfried Wolf and Helena Costa. In August 1977, she attended a University of Iowa graduate seminar in classical music held in Eisenstadt, Austria, where she studied with Vers Schwarz and Jorge Bolet.

Besides numerous solo performances in the Washington area, Miss Collett served for seven years as organist at Pilgrim United Church of Christ in Wheaton, Md.

CPR - RECERTIFICATION CLASS

A CPR recertification class will be held on March 19 from 7 - 10 p.m. in the MPAC, room 205, and the wrestling room.

In order to qualify for this class, students must register in the Health Center with Brenda Hooks. A CPR verification card from the initial course is needed at the time of registration. The class will be limited in number. Therefore, early registration is recommended.

THEATRE BOX OFFICE HOURS

Beginning March 8, Salisbury State Theatre's box office will be open from 2 p.m. - 6 p.m. to reserve tickets for Emlyn Williams' comedy-drama *The Corn Is Green*, which will be performed March 16-18 and 23-25.

General admission is \$3.50, student tickets \$2.50 and Salisbury State student tickets \$1.00. For ticket reservations and information, contact Bev Loane, box office manager, at 546-3261, ext. 498.

THE CORN IS GREEN

The Corn Is Green, Emlyn Williams' classic comedy-drama set in a Welsh mining village of the 1890's, will be performed March 16-18 and 23-25 by the Salisbury State Theatre. *The Corn Is Green* is the story of a gifted young miner (played by Timothy Dykes, a junior) who is rescued from the life-long drudgery of the mines and given a priceless education by a school teacher who, as portrayed by Dean Audrey Stewart, would have destroyed Mr. Chips in the first three minutes of any given conversation.

Persons in the college or town community interested in assisting in the construction of sets or costumes will be most welcome, and anyone having knowledge of the Welsh language could be especially helpful to the production as advisor on pronunciation and general ethnic background. Persons interested in any aspect of the production are requested to get in touch with Dawn Volkart, production manager, in the Theatre Office, Holloway Hall 009, or at ext. 497 and 498.

Ticket price as usual includes bus transportation to and from Washington; the bus will leave at 2 p.m. on March 22 from the Tawes Gym parking lot. MINORITY AFFAIRS COMMITTEE

The Minority Affairs Committee on Salisbury State College campus has been established to provide and promote greater contact and understanding among students, parents, faculty and staff, in order to facilitate a smooth transition for students from one educational setting to another.

Functions performed by the Minority Affairs Committee are: coordinate activities that affect the prospective undergraduate from the first time they come in contact with the college through the time they leave, initiate information programs in particular academics, collect and disseminate information.

We at SSC wish to inform college members of all minority groups about the academic opportunities that are available to them here. For example, the resource centers are a stepping stone to open many academic doors that were originally closed. SSC's faculty can be a great help, if they urge their students to visit the centers, in enlightening the students on how they can benefit from the use of the centers.

We appreciate your suggestions as to how we can improve our program, the literature describing it, or the manner of informing our students. We will be happy to answer any questions you may have. The minority coordinator is Leon Burks. He is in the Admissions and Financial Aid Office.

THEATER TRIP

This spring's second English Department/CCPB Theater Trip will take place on Thursday, March 22 when travel will be to the Folger Theatre in Washington to attend Shakespeare's *The Tragedy of King Richard the Second*. See the ambitious Bolingbroke depose the soft-tempered Richard, and then hear the pathos of Richard's histrionic response: "For God's sake, let us sit upon the ground/ And tell sad stories of the death of kings."

Tickets at \$4.00 each for students, faculty, and staff are now on sale at the College Center Desk. Ticket price as usual includes bus transportation to and from Washington; the bus will leave at 2 p.m. on March 22 from the Tawes Gym parking lot. Sign up now for a trip package which would cost at least fifteen dollars per person if you went on your own. For further information, call Bill Horne at ext. 481.

CROWN HEIGHTS AFFAIR

The Crown Heights Affair, an eight-member band will present a concert at Maggs Physical Activities Center, Sunday, March 18, at 8 p.m.

Originally from the New York City area, The Crown Heights Affair has been recording nationally for four years. Their debut single "Super Rod" was a Gavin pick and "Dreaming a Dream" was their first release for De-Lite Records, now considered a classic disco record. Other hit singles include "Every Beat of My Heart," "Foxy Lady" and "Dancin." Their new single, "Galaxy of Love" is the number one hit in England and "Say a Prayer for Two" is currently number 34 on the U.S. charts. Crown Heights Affair is the result of virtually endless rehearsing, grooming, touring and recording which has produced one of the tightest, most polished young groups on the music scene.

Tickets may be purchased at the Information Desk all week. They are \$3 for students, \$4 for faculty and staff, and \$5 for the public.

DISTINGUISHED VISITOR

March 19-20 are the dates that Dr. John Rassias, distinguished professor of foreign languages at Dartmouth and a member of the President's Council on the Study of Foreign Languages, will be visiting SSC. A noted teacher, best known for his teaching techniques, and the subject of several articles in national magazines and newspapers, Dr. Rassias will be giving several talks on campus.

On March 19 at 4:30 p.m. he will discuss teaching techniques for foreign languages. All faculty are welcome to hear him speak in the Chesapeake Room. Secondary school teachers have also been invited.

On March 20 at 3:30 p.m., Dr. Rassias will talk about teaching at the college level. His talk will be in DH 149. Please plan to attend! Dr. Rassias also will have some time in his schedule to visit classes. If you are interested, please make arrangements with Gisele Erwin, ext. 482.

Also on Tuesday, March 20, an informal reception for Dr. Rassias will be given by the Committee on Issues in Teaching at 5 p.m. in the Maryland Room. Contact either Gerry Rossi or Gina Haffner.

On March 27-28, SSC will play host to the eminent Harvard sociologist, Talcott Parsons. His schedule includes what should be a very interesting address to the campus community: "The Future of the University in America." The date is March 27 at 3:30 p.m.; the place will be announced. This topic, of vital interest to us all, should insure a good turnout!

RECEIVES HONORABLE MENTION IN ART EXHIBITION

Bill Thomas, representing the Office of Education and Training for Addiction Services in Baltimore, will give the national picture and Ms. Arlene Holtz, from Treatment and Direction for Alcoholic Youth, will emphasize trends and treatments of city problems. Dr. Gallagher, and Charles Sutton, from the Wicomico County Health Department, will give emphasis on data gathered in Wicomico County high schools on drinking. ATTENTION - ALL FEMALE STUDENTS, FACULTY AND STAFF OF CHILDBEARING AGE

Help Prevent Birth Defects

The Student Health Center is concerned that a number of females of childbearing age may not be immune to rubella (German Measles). It is estimated that approximately 20% of these women may not have that immunity. If a susceptible female contracts the disease during the first three months of pregnancy, there is a high risk of serious damage to the fetus, and birth of a baby with defects such as blindness, deafness, heart complications, and/or mental retardation.

To avoid this tragedy, every woman of childbearing age should know if she is immune to rubella. There is a blood test that will tell you if you are susceptible or immune. Immunity generally lasts a lifetime and can be achieved by having the disease or by receiving a single shot of rubella vaccine. We recommend that any female student who thinks she has neither had the disease nor received a rubella shot during childhood or adolescence have a blood test.

The Student Health Center will hold a free screening clinic to do the test on any female who is not certain of her immunity.

Place: Health Center
Dates: March 27 and 28
Time: 8:30 a.m. - 4 p.m.

Results of this test will be mailed to all who participate. Those who are found to be susceptible will be advised regarding the need for receiving rubella vaccine.

WORD OF ADVICE

Spring has arrived and almost everyone is anxious for a good tan. Most cases of severe sunburn are the result of failure to observe simple precautions.

—Begin your sunbathing by being exposed to the sun no longer than 30 minutes.

—Increase exposure 10 minutes each day until your skin becomes conditioned.

Do not let the cool weather mislead you! The sun is hot now, and bad burns occur easily.

NEW YORK TRIP

Sign up for a New York weekend that will be sponsored by the College Center Program Board on Friday, April 20 through Sunday, April 22. The \$45 fee includes a ticket to see CHORUS LINE, a 6-course Oriental meal, two nights' stay in a hotel, and the bus fare up and back. Sign up with payment at the Information Desk in the College Center on Thursday, March 15.

DOC HULT

The Muddyhole Coffeehouse will host Doc Hult on Thursday, March 15. The Coffeehouse will be held in the Maryland Room of the Dining Hall at 9 p.m. and free refreshments will be available.

THE DEADLY KILLER QUESTIONS ABOUT SICKLE CELL ANEMIA

1. What is Sickle Cell Anemia?

Sickle Cell Anemia (SCA) is an inherited disease in which there is a defect in the hemoglobin (coloring matter of the red corpuscles of the blood). The presence of this defective of abnormal hemoglobin is capable of causing distortion (sickling) of the red blood cells and a decrease in the number of these corpuscles.

2. What is Sickle Cell Trait?

A condition in which a person is a carrier of the tendency for red blood cells to sickle, or a condition in which the person is a carrier of Sickle Cell Anemia but doesn't have it. Sickle Cell Trait is not a disease.

3. How does a person get Sickle Cell Anemia?

Either it is inherited from both parents, or it is inherited from both parents who have the sickling tendency. You are born with Sickle Cell Anemia.

4. How does a person get Sickle Cell Trait?

You inherited it from one parent. You are born with Sickle Cell Trait.

5. What is Anemia?

Anemia is either a condition in which there is not enough red blood cells, or a condition in which there is not enough hemoglobin.

6. What is hemoglobin?

Hemoglobin is the red substance in red blood cells.

7. What does hemoglobin do?

Hemoglobin carries oxygen throughout the body.

8. What is the normal hemoglobin level?

The normal hemoglobin level is 10-14 units.

9. What is the usual hemoglobin level in a person with Sickle Cell Anemia?

The normal hemoglobin level in a person with Sickle Cell Anemia is 6-9 units.

10. Why does a person with Sickle Cell Anemia have anemia?

A person with Sickle Cell Anemia has anemia because they don't have enough red blood cells because sickle cells wear out (or break up) easily.

11. When do red blood cells sickle?

Red blood cells that have sickle hemoglobin can sickle when they lose enough oxygen.

12. Why does a person with Sickle Cell Anemia have pain?

Pain occurs in a person with Sickle Cell Anemia when the sickled cells jam up and stop the flow of blood.

13. What causes the various medical problems in Sickle Cell Anemia?

The various medical problems in Sickle Cell Anemia are the results of either the anemia or the plugging of blood vessels.

14. How long does the average person with Sickle Cell Anemia live?

The average life span of a person with Sickle Cell Anemia is shortened, but many persons with SCA have lived into their 60's and 70's. The majority DO NOT die before they reach adulthood.

15. What is the relationship between the severity and frequency of pain and death?

Pain, no matter how severe, does not lead to death.

16. What is meant by Sickle Cell Crisis?

Doctors state that a Sickle Cell Crisis means there has been some change in the condition of the person with Sickle Cell Anemia. It doesn't necessarily mean the change is an emergency, nor does it have to be serious. Having pain is called a SC Crisis by doctors, but pain is not an emergency and it is not serious.

17. Is there anything a person should do on a day-to-day basis to try to prevent pain?

There is nothing a person should do on a day-to-day basis to try to prevent pain.

18. What can the doctor do when a person with Sickle Cell Anemia has pain?

When a person with SCA has pain the doctor can give a medicine that relieves pain. There are no medicines that remove the cause of pain. There are no medicines to unplug the blood.

19. How long does a dose of medicine for pain usually relieve pain?

About four hours.

20. Which is the better drug for pain—aspirin or darvon?

There is little difference between the effect of aspirin or darvon.

21. What can the doctor do about the anemia in Sickle Cell Anemia?

The doctor can give a transfusion when necessary. There is no drug that will correct the anemia by raising the quantity of red blood cells or hemoglobin.

22. Under what circumstances should you get in touch with the doctor immediately?

- (A) If the child is dizzy, faints, has numbness or tingling in hands or feet or suddenly can't use hands, arms, or legs.
(B) If a child below two is drowsy or has lost his/her appetite.

OASIS IN SPACE

A multi-media lecture, "Oasis in Space," produced by Jacques and Phillippe Cousteau, will be presented on Wednesday, April 4, in HH Auditorium at 8 p.m.

Presented by diver and photographer Bill MacDonald, the show includes slides, film and music. The films represent a major effort by the Costeau Society to focus attention on the world's most pressing social issues. It covers the essential miracle of water, its life-supporting properties, its internal dynamics and threats to its vitality.

"Oasis in Space" will bring the Cousteau team together with NASA, government agencies, industries and individuals who are concerned with the quality and future of life. More importantly, it is about their life's work to do something about it. Through interview, on-location filming, and our own participation in NASA experiments, it is hoped that this work will become alive for millions of people. It will include exploration of the history, people, instruments, planning and testing that go into earth resources programs.

The amphibious PBY airship will be a mobile base of operations for the society team. The six half-hour programs will take team members throughout the United States, as well as into bordering areas. Each of the programs will relate to a

specific problem or condition that can be monitored from space—pollution, population, food shortages, energy and mineral shortages, water quality—quality of life.

In satellite images, one can see at a glance that elements dumped into San Francisco Bay reach as far as the Antarctic. One can see that toxic wastes dumped into the sea outside New York's legal limit are washing back on the New Jersey shore. One can see that some land areas will support dense populations, and others will not. One can see which crops will fail in a given year, and which will be bumper crops. One can trace the pollutants spread by winds and currents, monitor freshwater reserves, and locate concentrations of food in the sea.

There are problems, of course, in using this information to exploit ruthlessly rather than protect. The images, computers and data banks can only give the information; they cannot tell what to do with it. That is one reason why the Costeau Society believes "Oasis in Space" is necessary. The earth resources programs have had little publicity outside their own industry, yet they affect lives much more directly than a man on the moon. It is felt that "Oasis in Space" is one positive step the society is making toward communicating between the scientific and lay communities.

LET'S GET TOGETHER!

If you're looking for a nice way to meet people and swap camp songs, why not join the Campus Girl Scouts of Salisbury State College? Girl scouting is fun and it isn't just for girls anymore. Male volunteers are needed too!

Starting this spring, Campus Girl Scouting is coming to SSC! Possible activities include sponsoring "campus day" events for junior and senior high school girls, assisting troops, camping and hiking either with our own group or with a troop in the community, and service projects.

Even if you don't have a lot of spare time, you can be a lot of help to leaders in the community as a resource person teaching camp-craft skills, songs, games, dramatics, or helping with badges, challenges, and career pilots concerning almost any interest you can name. Helping troop members learn specific skills can help you decide if you are suited for your major whether you're majoring in Education, Physical Education, Social Work, Leisure Studies, or any other major offered here at SSC.

We plan to be a very flexible group requiring only the national registration fee of \$2.00 but no mandatory uniforms, dues, or weekly meetings. After we get enough members, an organizational meeting will be called. We need you to help us become an established campus group which would entitle us to use campus facilities. To do this, we need an active advisor, elected officers, and some written by-laws. Until we can meet at SSC, we can meet at the Girl Scout office in town. Anyone interested in joining Campus Girl Scouts or becoming our advisor, please contact the Girl Scout office at 742-5107.

He has since published *After Experience* (Harper & Row, 1968—nominee for National Book Award), *Remains* (Perishable Press, 1970), and *The Fuhrer Bunker* (BOA Editions, 1977—nominee for National Book Critics' Circle Award). ATTENTION SSC UNDERGRADUATES

There will be an "Experimental Pre-Summer Session" beginning Monday, May 14 and ending Friday, June 1, 1979. The Office of Continuing Education believes it can continue to meet the needs of Salisbury State students in both traditional as well as non-traditional programs.

A recent undergraduate survey indicates that a number of Salisbury State undergraduate degree students would be interested in a Pre-Summer Session beginning Monday morning, May 14 and ending Friday, June 1. SSC students could enroll for up to 3 S.H. credits. A 3 S.H. course would meet 16 or 17 sessions, 130-135 minutes per session, Monday-Saturday AM. This would enable Salisbury State undergraduates (who may begin full-time summer employment after Memorial Day) to enroll, in order to accelerate their degree programs, and afford the opportunity to transfer students to catch up on General Education requirements, etc.

The following courses will be offered during this Experimental Pre-Summer Session:

- 1597 100 001 Fundamentals of Speech, Balas
- 1501 330 001 American Literature 1860-1945, Calcott
- 4993 490 001 Selected Topics: Therapeutic Recreation, Connors
- 0835 126 001 Beginning Tennis, Burroughs
- 0835 490 001 Selected Topics: Sports Fundamentals Workshop, Peck
- 0835 490 002 Selected Topics: Sports Medicine, Smith
- 2207 101 001 Introduction to Politics and Government, Basehart
- 2001 495 001 Selected Topics in Psychology: Biofeedback and Its Application, Zweig

Listed below are the regular Summer Session '79 dates.

- 1) Evening Division will begin Monday, May 14 and end Friday, July 6.
- 2) Summer Session I (Day) will begin Monday, June 4 and end Friday, July 6.
- 3) Summer Session II (Day) will begin Monday, July 9 and end Friday, August 10.

MINIMESTER

The college will offer courses in the Spring Minimester Program beginning Monday, May 14 and ending Friday, June 1. The courses range from one to two credits. The minimester provides an academic framework similar to that of the regular semester. But it emphasizes intensified study of single topics and encourages flexibility and experimentation with the learning process with the hope that successful experiences will affect both teacher and student behavior in subsequent regular terms. Many of the ideas and innovations which are tried out for the first time in a minimester may find their way into the regular college curriculum. Classes vary in size and are in general smaller than during regular semesters.

Under the intensified study program, a registrant may complete the following courses in the three-way period. Ballet workshop; Big Circle Mountain Dance and clogging; Folk Dance Workshop; Social Dance Workshop; Illustration; Intermediate Scuba Diving; Mini-Student Teaching Courses for P.E. Majors.

Bulletins and registration forms are available in the Office of Continuing Education, room 155, Caruthers Hall.

BAND CONCERT

The Music Department of SSC will present the college band in concert on Wednesday evening, April 18, at 8 p.m. in the auditorium of Holloway Hall. The public is cordially invited without charge.

The SSC band, under the direction of Dr. Arthur L. Delpaz, associate professor of music and associate chairman of the department, will present a variety of music ranging from the classics to current musical theatre selections. The program will include variations on a "Shaker Melody" by Aaron Copland and the Gustav Holst "Second Suite for Military Band," as well as selections from Broadway show stoppers. The program will close with the Carmen Dragon arrangement of "America the Beautiful."

Members of the band represent eight counties of the Eastern Shore, Sussex County, Delaware and areas in central Maryland. John Johnstone, a junior from Cambridge, is president of the band. Bill Bennett of Lewes, Delaware is vice-president; Gail McWilliams of Hurlock is secretary-treasurer; and Jim Penley of Bel Air is business manager. Douglas Miles, a senior from Easton, serves the marching band as drum major.

A MESSAGE FROM THE MARYLAND DEPT. OF HEALTH

Presently, in the Baltimore City area, we are experiencing a rubella outbreak on two college campuses with additional suspect cases on another campus. All the campuses are in close proximity to each other. Additionally, we have early reports of rubella disease activity in a high school and an elementary school in the same general area of the colleges. We suspect all these cases are in one way or another related and that the outbreak is already widespread beyond the area now identified. To combat the outbreak, we have begun conducting a series of on-campus immunization clinics to reach all students who are yet unimmunized.

The is the time of the year when we traditionally begin to see rubella outbreaks. The cases now being reported in Baltimore probably represent the first of additional similar outbreaks we expect will occur in the State between now and late June.

The present United States practice concerning rubella vaccine emphasizes immunization of your children. This approach appears to have reduced dramatically the spread of rubella and has prevented many large epidemics, but has not adequately protected susceptible women who are now of child-bearing age and who are at risk of having babies with congenital rubella. This segment of the population has reached adolescence without the full benefit of rubella inoculation and without the usual opportunity of exposure to rubella as a younger person. The result has been a dramatic change in the age specific attack rate of the disease. The proportion of reported rubella cases occurring in persons fifteen to twenty years of age has increased tremendously. Seventy percent of the 1977 rubella cases occurred in this age group. The

striking change accounts for the outbreaks of rubella that have occurred in our high schools and colleges during recent years. Measles disease, while different from rubella, has also been severely reduced in recent years. For similar reasons to those for rubella, measles has likewise shifted to older children causing a definite potential for widespread high school and college outbreaks.

What's happening in Maryland is essentially no different than what's happening nationwide. The United States Public Health Service Advisory Committee on Immunization Practices in addressing the problem, is encouraging and emphasizing the need for a stepped-up and expanded measles and rubella vaccine delivery system directed to individuals in primarily the fifteen-to-twenty-year age range. The Committee also recommends that educational institutions such as colleges and universities should seek proof of immunization to measles and rubella from their students. We, in the Maryland Department of Health and Mental Hygiene, plan to pursue this latter recommendation in the near future by developing regulations that would require all new college and university students to show proof of measles and rubella immunization prior to admission.

In the meantime, we ask that each institution of higher learning consider offering measles and rubella vaccine to their students as soon as possible, either through student health service facilities or by conducting special immunization clinics on campus. In either case, vaccine, at no cost to the institution, will be made available upon request.

SSC HEALTH CENTER PLANS IMMUNIZATION CLINIC

Rubella (German measles) vaccine will be available to all students, faculty and staff, whether male or female who are 15 years or older. This service will be conducted in the Chesapeake Room of the Student Union, on Friday, April 27 from 8:30 to 4 p.m.

Outbreaks of the disease are occurring at this time on other college campuses throughout Maryland. One dose of the vaccine given will confer lifetime immunity. It is recommended that you get the vaccine if you have not had German measles or do not know if you have had the disease or the vaccine. If a susceptible female contracts rubella during the first three months of pregnancy, there is a high risk that the baby will be born defective.

The Health Center conducted a rubella (German measles) screening clinic March 27 and 28 to determine if women of childbearing age were immune to the disease. The number of women who participated was disappointingly low. We are concerned that many males and females on this campus are in need of rubella vaccine. Now is the time to receive this preventative vaccine. There is no charge for this service.

DR. KAPLAN TO SPEAK BEFORE INSTITUTE OF RETIRED PERSONS

The Institute of Retired Persons welcomes Dr. Max Kaplan, visiting professor of sociology and leisure studies, who will give a talk on "Recent Issues Related to the Aging Process." It will be presented on Thursday afternoon, April 12, from 3:30-4:30 p.m. in room 118 Caruthers Hall. The IRP is sponsored by SSC. Members of the IRP are urged to attend this very special lecture as are other retired persons living in the area. The public is also invited.

Dr. Kaplan is the author of 15 books, over 100 articles on subjects related to leisure, the arts and music, adult education and gerontology.

The Institute for Retired Persons (now in its second year) is entirely conceived and administered by its student body of older Americans. Its operating principle of self-determination and peer-teaching represents a sharp break from current practices in the development of programs for older citizens. The IRP encourages learning at a more leisurely pace with a peer-teacher for encouragement and direction. This program is designed to enrich all participants over 50, or a retired person of any age. You can learn at your own pace from your peers, studying what there was no time for before retirement, and there are no exams.

For further information, contact the Office of Continuing Education at ext. 306.

PROGRESS REPORT CAMPUS GIRL SCOUTS

FLASH Planning meeting for May 4 activity will be held at 3:30 p.m. on April 19 at the Girl Scout Office. Call the office at 742-5107 for more information.

Starting this spring, Campus Girl Scouting is coming to SSC! We are still accepting members and two possible advisors. Betsy Suckling is acting as president, Mary Marshall as vice-president, and Elizabeth Wilkins is acting as secretary at the moment. We need help planning our May 4 activity. In order to encourage sixth-grade girls to stay in scouting, we are planning a large scale slumber party to help them meet older girls who are still involved with scouting. This will include Salisbury area troops—approximately 100 girls.

We plan to be a very flexible group requiring only the national registration fee of \$2.00 but no mandatory uniforms, dues, or weekly meetings. Male volunteers are needed too! Don't delay—join today! Seriously, don't wait until next fall to join. If you join now, you can help guide the development and goals of Campus Girl Scouts of Salisbury State College. Anyone interested in joining us please contact the Girl Scout Office at 742-5107.

A MESSAGE FROM THE MARYLAND DEPT. OF HEALTH

Presently, in the Baltimore City area, we are experiencing a rubella outbreak on two college campuses with additional suspect cases on another campus. All the campuses are in close proximity to each other. Additionally, we have early reports of rubella disease activity in a high school and an elementary school in the same general area of the colleges. We suspect all these cases are in one way or another related and that the outbreak is already widespread beyond the area now identified. To combat the outbreak, we have begun conducting a series of on-campus immunization clinics to reach all students who are yet unimmunized.

This is the time of the year when we traditionally begin to see rubella outbreaks. The cases now being reported in Baltimore probably represent the first of additional similar outbreaks we expect will occur in the state between now and late June.

The present United States practice concerning rubella vaccine emphasizes immunization of young children. This approach appears to have reduced dramatically the spread of rubella and has

prevented many large epidemics, but has not adequately protected susceptible women who are now of child-bearing age and who are at risk of having babies with congenital rubella. This segment of the population has reached adolescence without the full benefit of rubella inoculation and without the usual opportunity of exposure to rubella as a younger person. The result has been a dramatic change in the age specific attack rate of the disease. The proportion of reported rubella cases occurring in persons fifteen to twenty years of age has increased tremendously. Seventy per cent of the 1977 rubella cases occurred in this age group. This striking change accounts for the outbreaks of rubella that have occurred in our high schools and colleges during recent years.

Measles disease, while different from rubella, has also been severely reduced in recent years. For similar reasons to those for rubella, measles has likewise shifted to older children causing a definite potential for widespread high school and college outbreaks.

What's happening in Maryland is essentially no different than what's happening nationwide. The United States Public Health Service Advisory Committee on

\$500 SCHOLARSHIP

The Salisbury branch of the American Association of University Women offers a scholarship in the amount of \$500 annually to a junior or a senior woman attending Salisbury State College. The student must reside on the Eastern Shore of Maryland and should evidence financial need.

Applications may be obtained from Ms. Beverly Newnam, Financial Aid Office, room 111, Caruthers Hall. Final date for filing applications is April 24, 1979.

Immunization Practices in addressing the problem, is encouraging and emphasizing the need for a stepped-up and expanded measles and rubella vaccine delivery system directed to individuals in primarily the fifteen-to-twenty-year age range. The committee also recommends that educational institutions such as colleges and universities should seek proof of immunization to measles and rubella from their students. We, in the Maryland Department of Health and Mental Hygiene, plan to pursue this latter recommendation in the near future by developing regulations that would require all new college and university students to show proof of measles and rubella immunization prior to admission.

In the meantime, we ask that each institution of higher learning consider offering measles and rubella vaccine to their students as soon as possible, either through student health service facilities or by conducting special immunization clinics on campus. In either case, vaccine, at no cost to the institution, will be made available upon request. If assistance is needed in the actual conduct of a clinic, that is also available.

PRE-SUMMER SESSION

There will be an "Experimental Pre-Summer Session." It will begin Monday, May 14 and end Friday, June 1. A three-semester hour course would meet 16 or 17 sessions, 130-135 minutes per session, Monday through Saturday AM. This would enable Salisbury State undergraduates (who may begin full-time summer employment after Memorial Day) to enroll, in order to accelerate their degree programs, and afford the opportunity to transfer students to catchup on General Education requirements, etc.

The following courses will be offered during this Experimental Pre-Summer Session.

1597 100 001 Fundamentals of Speech, Balas
1501 330 001 American Literature 1860-1945, Calcott

Summer Session bulletins are available in the Office of Continuing Education, Caruthers Hall.

SSC HEALTH CENTER PLANS IMMUNIZATION CLINIC

Rubella (German measles) vaccine will be available to all students, faculty and staff, whether male or female who are 15 years or older. This service will be conducted in the Chesapeake Room of the Student Union, on Friday, April 27 from 8:30 to 4 p.m.

Outbreaks of the disease are occurring at this time on other college campuses throughout Maryland. One dose of the vaccine given will confer lifetime immunity. It is recommended that you get the vaccine if you have not had German measles, or do not know if you have had the disease or the vaccine. If a susceptible female contracts rubella during the first three months of pregnancy, there is a high risk that the baby will be born defective.

The Health Center conducted a rubella (German measles) screening clinic March 27 and 28 to determine if women of childbearing age were immune to the disease. The number of women who participated was disappointingly low. We are concerned that many males and females on this campus are in need of rubella vaccine. Now is the time to receive this preventative vaccine. There is no charge for this service.

HOME BUYERS' SEMINAR

Porter & Associates, Inc., Realtors will sponsor a public service seminar April 25, and May 2, at the Ruth Powell Dining Hall. The topics covered the first evening will include home ownership and financing. The second evening will cover types of homes, what to look for in a home, why list, home warranties, contracts and closing or settlement.

There is no charge or obligation for attending this seminar, but a reservation is required. Call 546-2111 for additional information and a reservation, or contact Bill Martin.

MAHE DINNER/DISCUSSION TO BE HELD ON CAMPUS

The MAHE will hold its final dinner/discussion meeting for the '78/'79 academic year in the Ruth Powell Dining Hall, Friday, April 20. The topic will be Unionism vs. Collegiality. The panel members will be: Dr. Rafael L. Cortada, president, State Faculty Senate, associate professor, Department of Social Sciences, Coppin State College; Dr. Polly Stewart, associate professor, Department of English, Salisbury State College; and Dr. Robert C. Schleiger, president, Chesapeake College. The moderator will be Harold O. Schaffer, director of continuing education and president, MAHE '78/'79.

The social hour will begin at 5:30 p.m., dinner at 6:30 and the panel discussion at 7:30 p.m. A tour of the Wildfowl Museum will be given immediately following the panel discussion.

It is hoped the Eastern Shore will be as well represented as the Western Shore. This is indeed a most interesting and provocative subject. Reservations accepted on a space available basis only on or before Monday, April 16. No reservation is needed for the discussion part of the program. Reservations may be made by contacting Hal Schaffer, extension 306.

MEDICAL CAREERS CLUB

There will be a meeting of the Medical Careers Club on Monday, April 23, in DSH 130. Election of officers will be held at 6:45 p.m. The program, from 7 - 8 p.m. will be on the use of hypnosis in medicine. Speakers will be Elaine Howard, R.N. and Dr. R. J. McBrien.

College Chorus Concert

The Salisbury State College Chorus will present its annual spring concert, Sunday, April 22 in Holloway Hall Auditorium beginning at 5:00 p.m. The program is free and open to the public.

The featured work will be Franz Schubert's Mass in G with soloists Laurie Woodburn, Philip Medlin and John Johnstone. The mass is one of the most often performed choral works from the nineteenth century. It is known particularly for its rhythmic vitality.

The second half of the concert will contain a variety of choral selections including spirituals, Jean Berger's The Life of Man, Chris Moore's award-winning Two Songs from the Pilgrim's Progress and William Walton's Jubilate Deo for Double Chorus.

Soloists featured in the remainder of the concert are Elaine Wolcott, Ivalene Johnson, Ruth Sciacca and Pat Cottingham.

The chorus is under the direction of Dr. Ray Zeigler, associate professor of music at the college. Deborah Johnson serves as accompanist.
